

Letter from the Ministry of Education

JWSL No. [2016] 241

Official Reply to the Wenzhou Medical University

For Application for the Enrollment Plan of the MBBS (Overseas School-Running) Program

Wenzhou Medical University,

Acknowledge the WMU No. [2015] 53.

In order to fully implement the spirit of **the National Conference on Studying Abroad**, to support the overseas school-running and the strategy of “go global” for studying in China, to improve the quality of our medical education, and to enhance our international influence, **upon research and discussion with the Department of Higher Education of the Ministry, the Department of Higher Education** hereby agrees to **assign you the enrollment plan with a quota of 50 for the number of oversea students (the number of domestic students not included)** for your MBBS Overseas School-Running Program in the 2016/2017 school year as the pilot enrollment. The student education should be included into the MBBS Quality Control Evaluation System of the Ministry.

Sincerely hope that your school can make full use of the resources, both from home and abroad, and make proper risk assessment and control. Hope that you will strictly follow the requirements of the MBBS Program to implement the student enrollment and education as well as to ensure

the quality of the Program, so as to cultivate more medical talents who know and are friendly towards China and to **build a medical education brand for “Studying in China”**.
